I am writing to state my displeasure with the proposed settlement with Microsoft. The settlement, as structured , is a betrayal of the consumer. Microsoft has shown in the past they cannot be trusted to comply with agreements like this. Every clause in the settlement is riddled with exceptions that will allow Microsoft to continue it's current predatory practices. It is disappointing to see that after all the time, effort and money that was spent on this case the DOJ is giving up and selling out for political expediency.
